

75L Pump Chamber

SKU: PC75-V

Ideal situation:

- Where a sink or toilet is added inside an existing building with above ground plumbing
- Small stormwater pumping applications

The 75L pump chamber is ideal for small domestic installations, and consists of a high quality polyethylene tank ideal for collecting rainwater, greywater and/or black wastewater.

The pump installed inside the tank, is a stainless steel vortex pump and allows the water to be sent to the sewer or storage tank, depending on the application.

The chamber can be buried up to the lid, if needed.

Chamber dimensions: 580mm L x 380mm W x 440mm H

Pump Specs: 0.55kW, 3.6 amps, 9m max head, 260L/min max flow

Optimal pumping range: 150L/min @ 5m head
